

Water & Wastewater

Underground Storage Tanks & Wet Wells
Municipal | Industrial | Commercial

Who We Are

Fiberglass Tank Solutions LLC (FTS) is a family-owned and operated business, based in Central Missouri, near Lake of the Ozarks. Our location is geographically centralized to competitively serve the entire United States marketplace. Our 14.5-acre manufacturing campus has over 78,000 square feet of production facilities where we utilize the latest in FRP automated winders and mandrills to manufacture the industry's strongest fiberglass underground storage tanks.

FTS specializes in offering custom water and wastewater tanks along with a wide array of accessories and kit-up services to meet each specific market application. From early consultation to final delivery, our staff will provide individualized attention and customer service to achieve 100% success. Simply put, we do not over-promise, but we do over-perform. Our success is gauged by our performance to deliver the highest quality tanks that are on-time and within budget.

Applications We Serve

Underground fiberglass tanks serve as an ideal storage solution for handling large volumes of liquids. These are a few market applications we serve:

- Fire Suppression Tanks
- On-Site Wastewater Tanks
- Water Conservation Tanks
- Hazardous Capture Tanks
- Pipeline Sump Tanks
- Pump Vaults
- Potable Water Tanks
- Municipal Wastewater
- Interceptors & Separators
- Industrial Wastewater
- Stormwater Tanks
- Wet Wells

Tank Specs & Features

- 4, 6, 8, 10, & 12 Foot Diameters
- 500 - 60,000 Gallon Tanks
- Single & Double Wall Designs
- Anti-Flotation Systems
- H-20 Traffic Load Bearing
- Standard & Deep Bury
- Prepackaged Accessories
- Custom Kip-Up
- FEA Analysis
- Structural Calculations
- Buoyancy Calculations
- PE Stamped Calculations

Manufacturing Tooling & Facility

- Central USA Manufacturing Location
- 14.5 Acre Manufacturing Campus
- 78,000 ft² Under-Roof
- Helical & Hoop Winding Technology
- In-House Precast Concrete Manufacturing
- State of Art Automated Winders and Mandrils

100% Watertight

Lighter Weight

Corrosion-Resistant

Services We Provide

- Technical Sales Support & Applications Experts
- Logistics from Manufacturing to Jobsite
- Pre-Construction Services & Installation Training
- 20+ Year Experienced Engineering, Sales, & Manufacturing
- Conclusive Proposals, Quotes, (CAD / SolidWorks), 3D Drawings, & Submittals

Structural Strength

Realistic Lead Times

Prepackaging & Accessories

- Fiberglass tanks can be supplied with custom accessories for each market application
- Lightweight fiberglass tanks allow for complete prepackaging and shipping from our facility
- Prepackaging reduces labor costs and eliminates onsite confined space entry
- In-house prepackaging ensures superior quality, fit, and performance

Competitive Pricing
